

**9<sup>th</sup> International Conference on Dynamics in Logistics (LDIC 2024)**  
**February 14-16, 2024**  
**Bremen, Germany**  
**[www.ldic-conference.org](http://www.ldic-conference.org)**

### Scope

Dynamics of logistic processes and networks are at the heart of the conference. We invite empirical, theoretical, methodological, and practice-oriented contributions addressing the modeling, planning, optimization and control of processes in supply chains, logistic networks, production systems, and material flow systems and facilities.

LDIC 2024 provides a forum for the discussion of advances in that matter. The conference addresses scientists in logistics, operations research, engineering, and computer science. It aims at bringing together researchers and practitioners interested in dynamics in logistics.

### Topics

Topics of interest include, but are not limited to the following within **production, logistics, and supply chain management**:

- Dynamics and complexity
- Modeling and optimization methods
- Uncertainty, risk, resilience, and performance
- Strategic decision making, auctions, games
- Multi-modal transportation networks
- Maritime logistics and port operations
- Sustainable and green logistics
- Urban logistics
- Humanitarian logistics, disaster management
- Smart production and material flow systems
- Digitalization, cyber-physical systems, and digital twins
- Artificial intelligence, data science, and IT platforms
- New work in logistics, human-machine interaction

### Submission and Publication

Authors are invited to submit their contribution in one of the following formats:

A full paper with up to ten pages – excluding author details and references – which will be considered for publication in Springer's "Lecture Notes in Logistics", one of the most downloaded Springer books, indexed by Scopus, Web of Science (ISI), ACM DL, DBLP. Full papers must contain original research, which must not yet have been published elsewhere. Full papers will be double-blind peer-reviewed.

An abstract (for presentation only) with up to 250 words – excluding author details and references – which will appear in the Book of Abstracts that will be given to the participants at the conference.

The submission system – including author instructions and Springer's template – is open on the conference website: [www.ldic-conference.org/ldic-conference/call](http://www.ldic-conference.org/ldic-conference/call).

### Important Dates

#### Deadlines for full papers

- Submission of full papers: September 10, 2023
- Notification of review results: November 1, 2023
- Submission of revised, full papers: December 1, 2023
- Publication of conference proceedings: May 2024

#### Deadlines for abstracts (for presentation only)

- Submission of abstracts: October 1, 2023
- Notification of acceptance: November 1, 2023
